Summer Camp Weekly Activities

1. **Soccer Shots!**

Soccer Shots! is a high-energy program introducing children to fundamental soccer principles, such as using your feet, dribbling and the basic rules of the game. Through fun games, songs and positive reinforcement, children will begin to experience the joy of playing soccer and being active.

2. **Hug Music NY**

The class is led with high-quality live music throughout the class with acoustic instruments. We emphasize the importance of giving children access to live and acoustic music because nowadays we are exposed to “computer-made” music all the time, and this is also true for our children. Exposing children to high-quality acoustic music from a young age is extremely important to promote healthy development of their ears.

3. **Alley Pond Environmental Center Outreach Program**

This interactive lesson offers observation and handling of live animals to help students understand animal classifications (mammal, bird, reptile, and more). This program focuses on animal habitat, diet, texture & movement.
